      <h1>Hi I'm Raghavendran Ganesan</h1>

      
      <div class="about-me">
        <p>
          I'm an Electronics and Communication Engineer with a passion for
          innovation across both hardware and intelligent systems. With a strong
          foundation in circuit design and signal processing, I've also explored
          machine learning, IoT, and embedded systems. I've published research
          on Cloud and Fog computing, and developed deep learning models for CSI
          estimation in UV MIMO systems. I thrive on bridging traditional ECE
          with modern tech to build impactful, real-world solutions.
